About this Index

An index taken by the DAR many years ago was used as a starting point for the index that follows. A stone-by-stone inventory was conducted in April 2006. When the entry was found on the DAR index, the information was merely checked for accuracy. When the entry was not found, it was recorded. The new list was then double-checked, and some entries on the DAR list were no longer found in the cemetery. This could be due to vandalism, weather damage, or some other reason. They were included in this list and a notation was placed in the comments column indicating that no stone was found in April 2006, and the DAR Index was listed as the source in those cases.

It is hoped that this listing will serve as a valuable resource for researchers. The Hartford Genealogy Resource Center hopes to inventory the other cemeteries within the town of Hartford. As you use this index, if you come across any errors, please let us know so they may be corrected.

West Hartford, VT Cemetery Index
